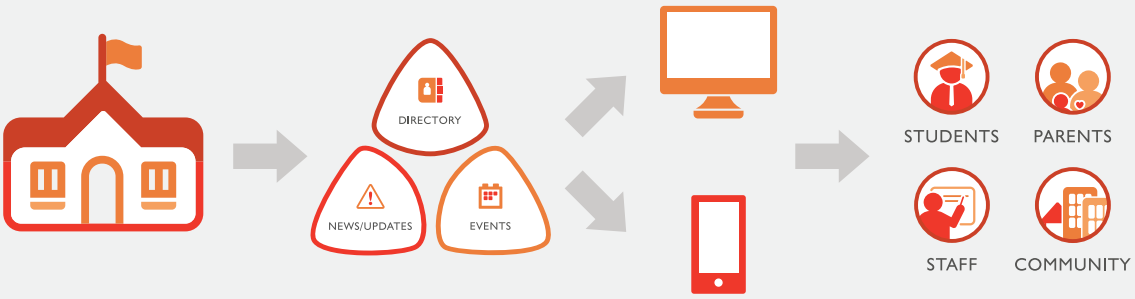
CMS4Schools™ Touch

Give your families the info they need, on-the-go

Help busy parents access key info from alerts and activity changes to lunch menus, field trip forms, grades, homework and more. Give one-click access to teachers and school offices.

CMS4Schools Touch mobile app provides a convenient, always-with-you way for parents to find the info they need, when they need it.

Integrated with your CMS4Schools website



All your faculty directories, menus, announcements and more flow right from your website into the CMS4Schools Touch app. No adding content twice!

Connecting with your school community has never been easier.

CMS4Schools™ Touch+

All-in-one communication, from the palm of your hand

Capture a great moment at a game, concert or in a classroom? Have an urgent update for parents? Share in real time from the event, push out notifications, and provide updates quickly and easily all from our easy-to-use app.

We all know communication is key to building trusting, positive relationships with our stakeholders. That's the case whether it is staff, students, families, business partners or the greater community.

But good communication takes time and we are busy!

Save time, be W.I.S.E: Write It, Share Everywhere

Write your message once, add photos or video and share instantly to as many channels as you choose: social media, website, mobile app, voice, text and emails. No more logging into multiple platforms to post everywhere.

CMS4Schools Touch+ app provides a powerful, on-the-go communication tool,

connecting to your audience in real time, with real convenience. Just click on which channels you want to share to, write or record a message, or add a photo - post and you're done!

Connecting with your school community has never been easier.
