A SAMPLING OF WHAT CAN WE DO TO GROW YOUR SYSTEM:

- Facilitate systemic implementation of an EMLSS inclusive of your school community's mental health needs
- Support use of metrics to measure the quality and sustainability of your mental health system and to track growth
- Support use of data to drive decision-making
- Facilitate grant writing and implementation of grant-dependent work
- Facilitate initiative and team alignment
- Develop effective teaming processes
- Design staff professional development
- Support adult SEL needs including staff resilience/compassion fatigue
- Develop/refine processes for moving students through tiers of support
- Complete a needs assessment/resource mapping process
- Build a referral pathway
- Select/implement use of screening tools and processes
- Select/implement use SEL/mental health curricula
- Establish community partnerships
- Facilitate opportunities for students to access tier 3 clinical support
- Connect you with other districts doing similar work
- Facilitate development of communication loops with key stakeholders

The cadre of AMHE coaches have supported 40+ school teams in implementing comprehensive school mental health, establishing one of the largest learning communities in the nation tackling this work. They have extensive training and support in coaching teams, with experience specific to addressing change at the system level and implementation of comprehensive school mental health. Regional Learning Communities (RLC) will be held virtually. We will facilitate sharing of tools and processes and opportunities for networking, reflection and growth. Content will be dependent on the unique needs of the RLC participants.
