

# Advance Your Strategic Goals

with CESA 6  
 Grant Center

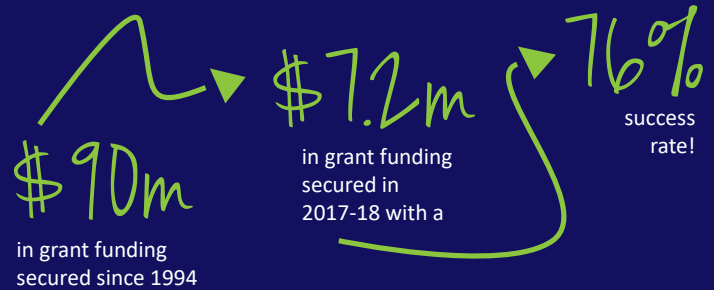

## YOU HAVE AN INNOVATIVE PROJECT. WE HELP YOU FUND IT.

Your organization is busy making a difference in the lives of youth. We can help you sustain and grow your mission by writing grant proposals that thoughtfully present your ideas to the right funding source.

Over the past decade, grant funding has become increasingly difficult to win, yet schools and nonprofits have less capacity to manage the grant process. **THIS IS WHERE WE CAN HELP!**

Our experienced, skilled writers have a *track record of success:*

## Helping You Succeed

We serve public and private school districts as well as non-profit community-based organizations that serve children, youth, and families. As a full member, you have retained the services of a professional grant writer and have access to all of the following services and benefits:

"In working with the CESA 6 Grant Center on several multi-million dollar grants, our writer's coordination, leadership and flexibility were exceptional. The Grant Center writers possess the unique blend of facilitating others work by keeping them engaged while at the same time coordinating all the various parts to an application assuring that all tasks are accomplished. If they are not directly familiar with a grant opportunity, they dig in and soon become the knowledgeable experts. I recommend the Grant Center to lead any grant application, big or small."

- Joseph Sheehan, Former Superintendent Sheboygan Area School District
