# WT2 Edge Translation Earbuds

The world's 1st truly bi-directional  
simultaneous translation earbuds

## Immersive Real-time Translation

The world's first truly bi-directional simultaneous translation earbuds, translating in real-time as you speak and delivering it to your listener's ear in as little as 0.5 seconds. No more awkward pauses or interpreters, just fast and accurate translations, so you can immerse yourself in the art of conversation. From pillow talk to boardroom banter.

\* With up to 95% accuracy in 40 languages and 93 accents

- Each person wears one piece of earbuds
- Voice pick-up and translation are automatic
- Hands-free and deep communication
- Talk freely and hear translation continuously

## Bi-directional Simultaneous

Until now, language translator devices were a lot like old walkie-talkies. With the WT2 Edge, it's always your turn to speak. It's the first earbuds to offer true bi-directional simultaneous translation, meaning you can speak and hear other people's translations at the same time.

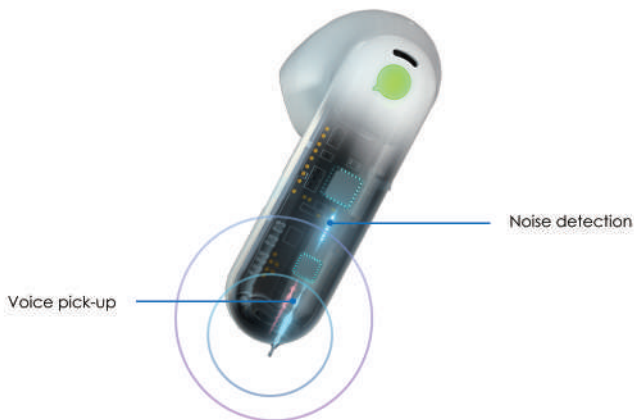

## Group Meeting up to 6-person

With the super-strong capacity of WT2 Edge, you can maximally pair three pairs, 6 earbuds with one smartphone, then set two languages for each one. A small face-to-face bilingual meeting will be started easily.

## Smart Noise Reduction

WT2 Edge uses dual beamforming microphones and directional voice recognition to focus on the sound of your voice, separating it from other voices nearby. So you'll never mince words with whoever's sitting next to you.

## Accuracy up to 95%

Every top translation engine has its perks. That's why we used... all of them. Powered by the world's 6 leading translation engines (DeepL, Google, Microsoft, iFlytek, AmiVoive, Hoya) and Timekettle its own, the Edge earbuds deliver faster and more accurate translations to your meetings and conversations.

## 40 Languages & 93 Accents

English	Japanese	Hindi	Romanian	Turkish
French	Korean	Croatian	Bulgarian	Vietnamese
Spanish	Catalan	Hungarian	Slovak	Icelandic
Portuguese	Czech	Indonesian	Slovenian	Ukrainian
Arabic	Danish	Malay	Swedish	Urdu
Chinese	Finnish	Dutch	Tamil	Filipino
German	Greek	Norwegian	Telugu	Russian
Italian	Hebrew	Polish	Thai	Cantonese

\* Constant updates for more languages and new features.

## 8-language Offline Translation

We equipped the Edge with eight languages and counting available for offline access. So whether you're sipping tea with your suppliers in South China or exploring a winery with your partners in Tuscany, the WT2 Edge is there to help get your order right.

\* Offline Translation Supported

English <-> Chinese, Japanese, Spanish, French, Russian, Korean, Germany ;  
Chinese <-> English, Japanese, Spanish, French, Russian, Korean, Germany

## 3 Smart Modes, For Every Occasion

### **SIMUL MODE (bi-directional)**

Simul Mode helps you connect one on one for effortless face-to-face communication. Just share one of your earbuds with your partner, and both of your words will be translated in real-time for natural, bi-directional communication.

### **TOUCH MODE**

With Touch Mode, simply tap your earbud when you have something to say and you're in control of the conversation, and your message will be translated and delivered to everyone listening.

### **SPEAKER MODE**

Wear one earbud, and simply say what you need to say. The Edge will then translate and deliver your message through your phone's speaker, so anyone in earshot can hear it.

## Secure-fit and Comfortable

We've tailored the Edge earbuds to fit your ear comfortably while sealing in audio for superior noise reduction. Edge is only at a sleek 5.4 grams each, so you won't even notice them in your ear. So jump on that moped and enjoy the ride knowing your earbuds will stay right where they belong.

## Long Battery Life

WT2 Edge gives you three hours of nonstop translating time on a single charge. And a full 12 hours with the portable charging case. Meaning you'll often have enough battery to power a full week of work or a short trip abroad on a single charge.

**1.5** hours

Fully charged over  
Type C port

**3** hours

Continuous translation

**12** hours

Battery life with  
charging case

## Case Study

### First Pentecostal Holiness Church

with Hispanic audience

"We united people together. And bring love and faith beyond language barriers."

—Priest in Tarbobo, USA

### General Motors (GM)

in overseas business trips

"I am a Mechatronics Validation Engineer on Self Driving Electric Vehicles. Thanks to Timekettle in playing a pivotal role in my Germany trip!"

—Arif Waheed, USA

### Ottumwa Community Schools

with Korean students for non-English speaking students

"Everybody saw the potential. We just saw that this was a huge potential for our kids in order to get academic language to our students while they're learning English."

—Mike Stiemsma, Director of Special Programs, USA

### Multicultural Family

with family and friends

"Timekettle saves my marriage! I can hardly wait to talk to all my family in Finland. Plus my family in the Netherlands. No more drawing pictures!"

—Stefan K., Canada

### HEBEI IMPACT Medical Technology Co., Ltd.

with Chinese customers

"My customers speak in different accents. But thanks to the translator earbuds, I can easily communicate with people from all over China."

—Kikuchi Yuto, Japanese certified prosthetist orthotist

## About Timekettle

Established in 2016, Timekettle is an industry-leading translation solutions provider recognized by winning numerous international awards such as CES Innovation Award, iF Design Award, and Japan Good Design Award. As the top-selling brand in the translator device industry, Timekettle now has the largest market share on Amazon, serving hundreds of thousands of users in 171 countries and regions worldwide.

## Media Highlights

**BBC**

The device that translates languages instantly. It's based on a device from THE HITCHHIKER'S GUIDE TO THE GALAXY. That's really impressive because it translates long words properly.

**Forbes**

Timekettle is ambitious with what it's trying to do here - that's worth applauding in itself.

**The Sydney Morning Herald**

Letting you converse with strangers in dozens of languages, Timekettle's WT2 earbuds ensure you're never lost for words when travelling abroad.

**TC**  
TechCrunch

Timekettle's WT2 real-time translation earpieces enable ordinary conversation across language barriers
