Instructions for the Worksite Mentor(s) and Instructor(s)

The Skill Standards Checklist is a list of the competencies (tasks) to be achieved through mentoring at the worksite.

- The worksite mentor should rate each competency as the student acquires and demonstrates the skill **according to the performance criteria.**
- A competency may be revisited and the score raised as the student becomes more proficient at the worksite.
- The mentor and student should go over this checklist together on a regular basis to record progress and plan future steps to complete the required competencies.

I certify that this student has successfully completed the competencies required in my department. Circle your YA role, sign and print your name, and complete with the date and the department name.

Operational Program Notes for Skill Standards Checklist

1. Information Technology Youth Apprenticeship Curriculum

- Definitions:
 - Competency- The worksite skill to be performed
 - Performance Standards- How to assess skill performance as applicable to worksite
 - Learning Objectives- Content knowledge recommended to learn these skills; may be taught by the employer, school district and/or technical college
 - Skill Standards Checklist- The documented list of competencies completed by the YA student
 - W/S- Listed after a skill indicates that skill performance may be learned and assessed at the worksite OR in the classroom in a simulated setting. However, a simulated setting should ONLY be used IF there is no possibility of skill performance at the worksite.
- Performance Standards & Learning Objectives are located in applicable Appendices of the **Program Guide for this Youth Apprenticeship**

2. ALL Youth Apprentices **MUST** complete the Core Skills and Safety & Security competencies for **EACH UNIT** they are enrolled in

- The competencies may be completed concurrently with the specific unit technical competencies
- These competencies are common skills specific to all Information Technology (IT) sub-sectors. These skills are *aligned with* the National States' Career Clusters standards for Information Technology.

3. Youth Apprenticeship choices (depending on job placement)

- Competencies have been reviewed by the Department of Workforce Development for Child Labor Laws. Contact the Department of Workforce Development's Equal Rights Division/Labor Standards Bureau at 608-266-6860 for questions regarding child labor laws. SEE Appendix A for special Child Labor Law considerations in this YA Program.
- Students will complete a **Minimum Rating** in the Required Skills and one additional pathway unit for a Level ONE Information Technology (IT) YA and a **Minimum Rating** in the Required Skills and two additional pathway units for a Level TWO Information Technology (IT) YA
- Virtualization in server test environments or similar at the worksite is allowable in order to practice and master more critical worksite competencies
- The Department of Workforce Development Occupational Certificate will indicate "Information Technology (IT)" attained when the program is completed

4. Competency Ratings

- Rate the student on the competencies regularly and revisit the competencies with the student periodically to offer the opportunity for an improved rating
- Arrangements must be made to ensure that the student learns, practices, AND performs each competency **even if** that competency is not part of their regular job function
- "Entry Level" criteria should be interpreted to mean "able to do the task satisfactorily"
- "Assist" in front of a skill indicates that the student should perform the skill *as indicated in the curriculum* "while assisting a worksite professional." Training should go beyond "observation only" for these skills. It will be up to the employer to determine the criticality of each specific task, training completed, and the actual level of supervision required. See actual curriculum details for requirements.
